SENIOR FULL-STACK ENGINEER

PROFESSIONAL SUMMARY

Full-stack engineer with 7+ years of experience delivering web, backend, mobile, and data-intensive applications for teams in Japan, Singapore, Myanmar, and Taiwan. Production experience across Vue.js, React.js, Next.js, Java, Quarkus, Node.js, InterSystems IRIS/ObjectScript, SQL, and Docker environments. Built logistics, digital-exchange, energy-monitoring, campaign, and business systems serving up to 200 users.

TECHNICAL SKILLS

Frontend: React.js, [Next.js](#), Vue.js, TypeScript, JavaScript, Redux, Tailwind CSS, SCSS, Bootstrap, GSAP, Three.js, Wijmo

Backend: Java, Spring Boot, Quarkus Reactive, Node.js, Express, InterSystems IRIS/ObjectScript, REST APIs, GraphQL

Data: PostgreSQL, MariaDB, MySQL, MongoDB, RethinkDB, Dynamic SQL

Delivery: Docker, Jenkins, Linux, Nginx, Git, CI/CD, Quartz

Practices: API integration, performance optimization, responsive UI, system integration, Agile/Scrum

PROFESSIONAL EXPERIENCE

Big Valley International Co., Ltd. (BVI), Japan | Full-Stack Developer | May 2025-Present

- Build and maintain enterprise logistics portal screens for inbound planning, loading progress, shipping, inventory, and master-data workflows using Vue.js, Wijmo, IRIS/ObjectScript, and SQL.
- Improved Shipping Plan Details search from about 10 seconds to 2 seconds by replacing repeated per-row queries with cached and batched master-data lookups while preserving correct business results.
- Developed portal APIs with ObjectScript and dynamic SQL for search, aggregation, status calculations, and MC/BOX/PCS quantity conversion.
- Enhanced reusable grids with new columns, buttons, conditional row colors, image popups, scrolling behavior, and layout/index fixes.
- Integrated inventory, receiving, picking, loading, and shipping data; investigated discrepancies with SQL and validated behavior against specifications.
- Supported compilation, data imports, environment configuration, scheduled-process troubleshooting, and frontend/backend connectivity in shared IRIS environments.

Wunderfauks, Singapore | Full-Stack Engineer | Sep 2023-Feb 2024

- Developed campaign and immersive web experiences for Nanyang Academy of Fine Arts, Resorts World Cruises, and AirAsia.
- Built an interactive NAFA yearbook using Next.js, Vite, Three.js, and GSAP, translating creative direction into responsive 3D and animated experiences.
- Developed an AirAsia voice-activated React.js experience using Speechly for word recognition and decibel measurement.
- Created a JavaScript, PHP, and WordPress Christmas game for Resorts World Cruises.

Immin, Singapore (Remote) | Software Engineer | Sep 2021-Aug 2023

- Developed digital-exchange frontend and backend features using Quarkus Reactive, Flutter, GraphQL, REST APIs, MariaDB, and RethinkDB.
- Implemented wallet overview, binding-order placement, and a reactive order-book interface with real-time market updates.
- Scheduled microservice processes with Quartz and supported Linux deployments using Docker and Jenkins.
- Built React Native KYC flows for the Xallet cryptocurrency wallet, integrating verification APIs, error handling, and secure user workflows.
- Delivered responsive React.js interfaces and reusable components for additional customer products.

Kumo Solutions, Myanmar | Web Developer | Oct 2018-Aug 2021

- Delivered full-stack energy-monitoring, reporting, survey, attendance, and business systems for customers in Singapore, Taiwan, and Myanmar.
- Built React.js dashboards, real-time charts, maps, and role-aware interfaces using D3.js, Highcharts, Recharts, Nivo, and Google Maps.
- Developed Java/Spring Boot and Node.js services with MySQL and MongoDB for IoT processing, reports, authorization, and business workflows.
- Served as sole frontend developer on selected dashboards and worked directly with international project coordinators.
- Modernized a Java Swing energy calculator into a React.js web application and added report-generation functionality.

EDUCATION

Pearson HND in Computing and Systems Development | iNet College

BA in English | Mandalay University, Distance Education

LANGUAGES

English - Business proficiency | Japanese - JLPT N4 level | Burmese - Native
